Dear Sir:-  
Noticed your reply to Mr. Otis R. Burr, Van Vugt,  
Calif., re Army War with Spain Campaign badge in  
~~Adventure Magazine~~. There were many medals for this war, all soldiers  
who served, whether in the states or out of them  
were entitled to a Spanish War Service Medal.  
Those who served in Cuba during active fighting  
had a special medal; those who did garrison duty  
had a afterwards had an Army of Occupation Medal  
and so on, for Porto Rico had its medals as did  
the Philippines, China Relief Expedition (Boxer War)  
etc. I am sending you the labels taken from the  
box in which one of my medals was enclosed.  
My medal is numbered 21720 on it. Probably, at one  
time the manufacturer used the letter <sup>before the serial number</sup> to designate his  
manufacture, same as a mint mark on a coin.  
The Joseph Mayer Co. or the Q.M. Depot at Philadelphia  
can possibly explain the significance of the letter  
before the serial number.

Yours truly

W. H. Emery M. D.
